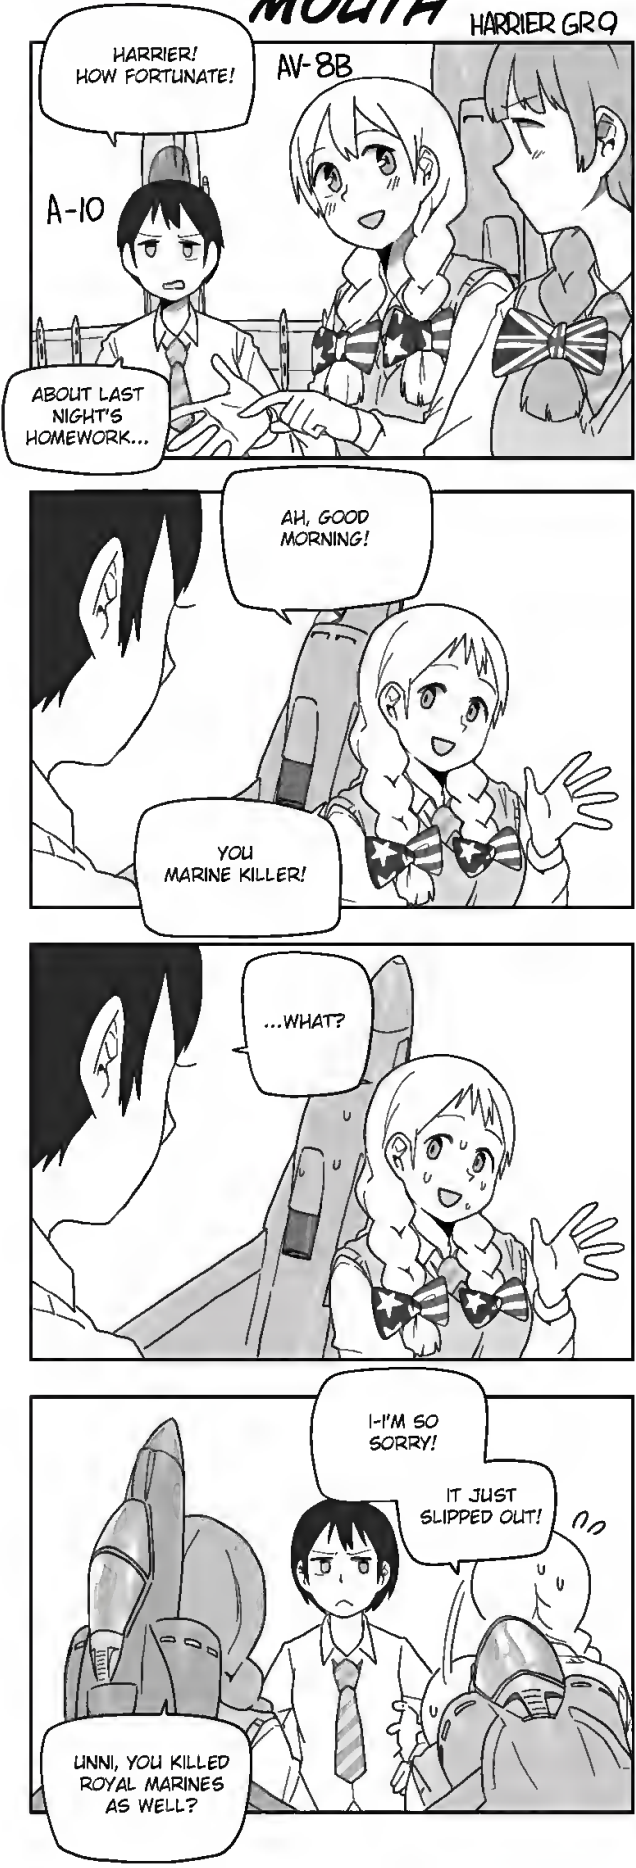
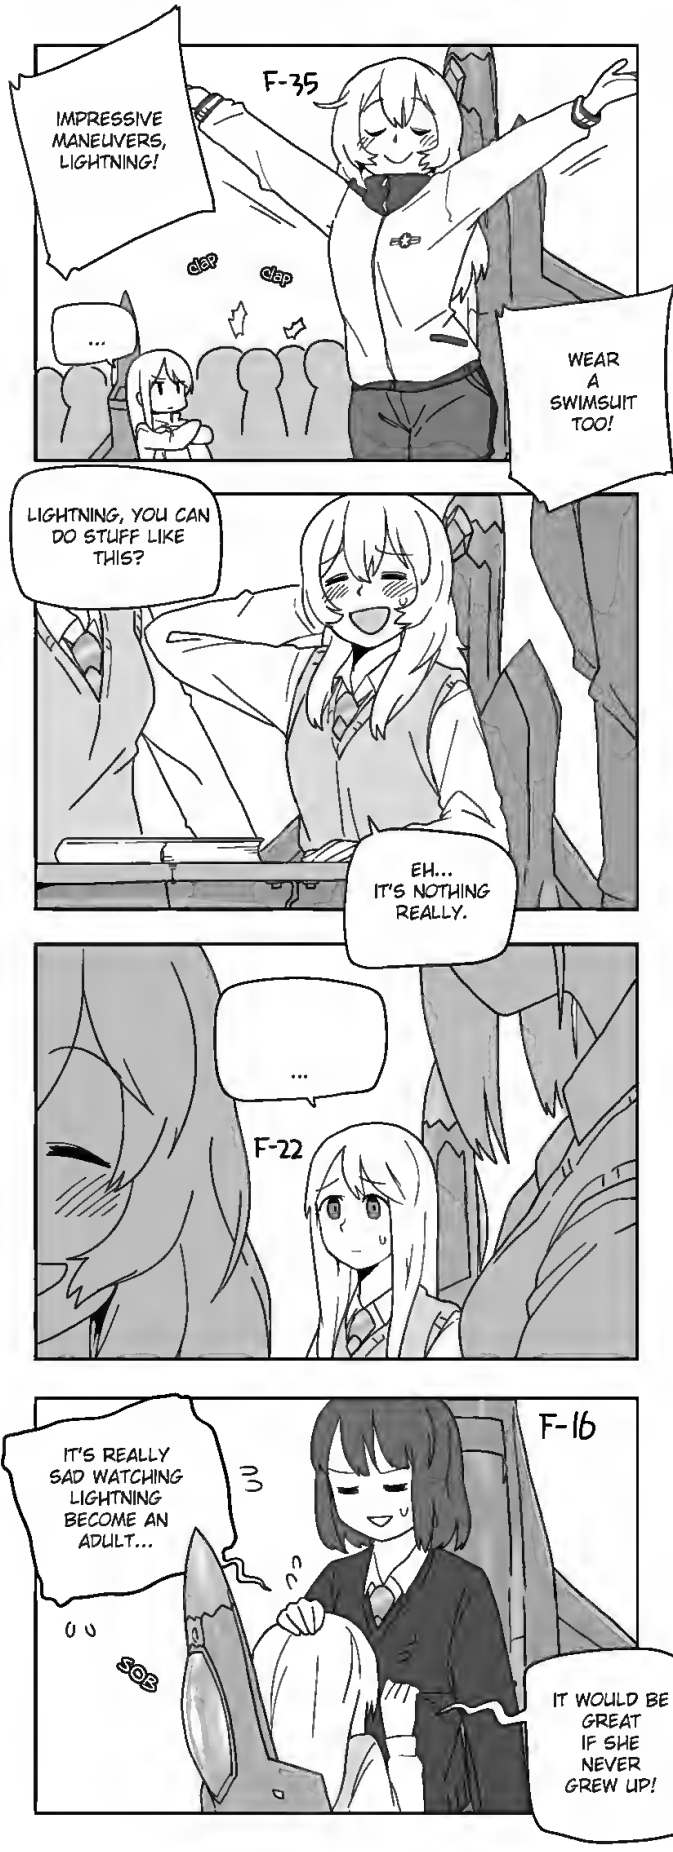
URANIUM HOLIC

HEY TOMCAT, YOU KNOW...
I HEAR THAT IT'S REALLY POPULAR AMONGST KIDS TO PUT 'NUCLEAR' IN FRONT OF WORDS.
F-14
F-4
I'VE BEEN HEARING LIGHTNING SAY THAT A LOT AS WELL.
Also is that a 2G phone?

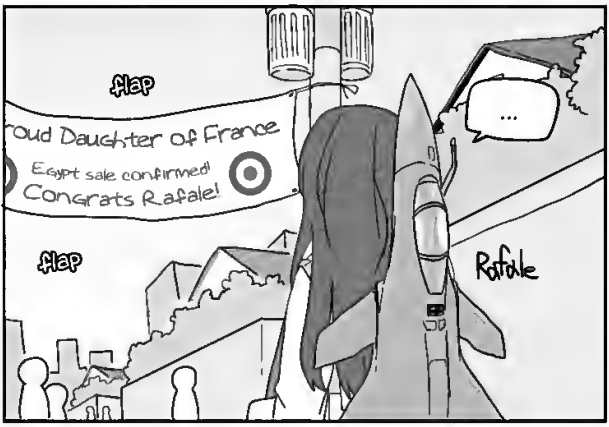
AN UNEXPECTED FOUL MOUTH

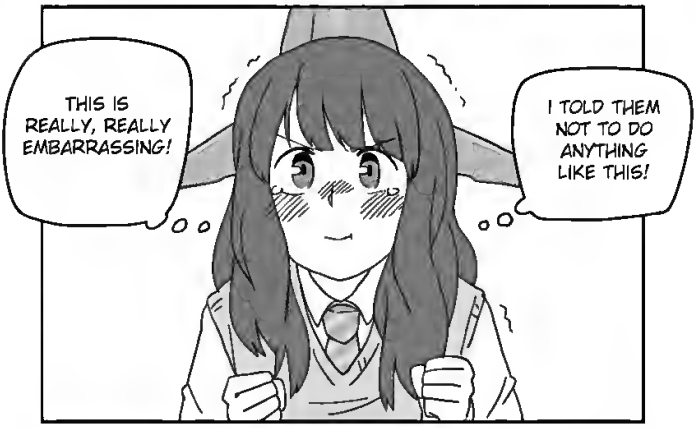


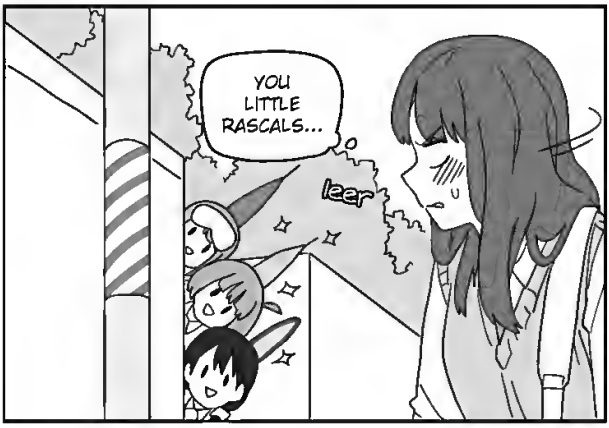
NEARING DEBUT



DAUGHTER OF FRANCE







AH RAFALE, YOUR PRESENCE IS SO BRIGHT IT'S BLINDING US. YOU DON'T MIND IF WE WALK A LITTLE FARTHER AWAY FROM YOU RIGHT?
EF-2000
congrats
JAS39
NOT YOU TOO!

Anyan's comments:

It's the first appearance of France's new strategic bomber Mirage IV. Somehow she appeared in the hanger earlier than the Mirage III... She will become the character that imbues the burning desire of France to have a nuclear payload delivery system; be on the lookout for her!

During the Gulf War, the A-10 was infamous for friendly fire. Since it was used to do CAS so close to allies there were many cases where friendlies were mistaken for enemy combatants. In the movies "Jarhead" and "Generation Kill" the marines would refer to the A-10 as marine-killing machines or blue-on-blue planes... haha

As you know the AV-8B "Harrier" is a VTOL aircraft used by the US Marines.

The last two were based on recent events considering I haven't released any new episodes lately. Lightning's adoption seems to be going smoothly... but of course it isn't without any hitches... the whole fuel temperature fiasco will be included in future episodes (gotta get those ideas down lol)

Raptor seems to become a worried sister kind of archetype.

As you might know, recently 24 Rafales were sold to Egypt. It sounds like a trade deal with India might become a thing, as told by the Indians... I just hope that everything gets wrapped up ASAP. Pls no more of this push and pull business!

An upload after a long break... I'll try to upload more often.

Hopefully you've had a great break..! Have a great Children's Day ^-^ [May 5th 2015]

Cryostasis Scans

name change woo
